Small Firm.

Big Experience.

Valued Relationships.

The McQuillan Group
CPAs AND BUSINESS ADVISORS

The McQuillan Group

is truly unique amongst its peer CPA firms in the Pittsburgh area. We are a local, boutique accounting firm that offers clients the expertise of a regional firm, while providing the service and personal attention of a local firm. We offer a full complement of services including tax, accounting and assurance, and consulting to clients that include, but are not limited to construction, entertainment, real estate, manufacturing, restaurant, pharmacies, distribution, and professional services. In addition, we provide services beyond the traditional tax and accounting services, such as:

- Buyer or seller representation in mergers and acquisitions.
- Assisting in finding suitable merger or acquisition candidates.
- Working capital conversion.

Small Firm.

Our small size allows us to know our clients and their needs. It also enables us to learn about their business so that we can make recommendations that can help grow and improve their operations. At The McQuillan Group, we offer the kind of personal attention that is not possible in a big firm. Here, clients have access to all of our staff, including our partners.

Big Experience.

Though we are a small firm, we have BIG experience! All of our professional staff are CPAs that have developed their expertise by working at regional and national firms. This level of experience and expertise allows us to provide a depth of services unmatched by firms of this size. Most importantly, at The McQuillan Group, you are not handed over to a "newbie" accountant. Rather, you will be serviced by a team of experienced professionals, who will concentrate on your specific business needs.

Valued Relationships.

Through the years we have had the privilege of working with great clients, many of whom we now call friends. Our clients are important to us, therefore, we engage in an on-going conversation throughout the year, that allows us to be a partner in their business, and help them achieve their personal and professional goals.

Film Tax Credit Specialists

We have extensive experience working with production companies on the PA Film Tax Credit. In fact, we have worked with most of the major production studios, in addition to many independent production companies. We pride ourselves on being a resource for questions and we work closely with the production companies to assist them in complying with the guidelines. As a result, we are the premier firm in Pennsylvania to address the needs of film production companies. We are uniquely qualified to perform these types of engagements and we provide considerable value and insight regarding the film tax credit program.
